

Cat Return Tracking: Historical Document

The Cat Returns Tracker is a historical spreadsheet that was maintained by the Cat Program Manager. Similar data is now able to be obtained through ShelterLuv without the need to maintain a spreadsheet.

Data illustrated within this document is historic and only to be used as an example. Data includes the cat's basic information; days in home which can indicate when it may be most helpful for an adoption follow-up team to reach out offering support; and the reason why the cat was returned so you can spot trends that may be occurring within your organization and so that your adoption counseling can be more effective in real-world situations that are most likely to occur and not spend so much time counseling on issues which are not prevalent.

#	Cat	Adoption Date	Return Date	Days in home	Location	Counselor	Reason	Explanation		
A2909357	Yasmin 22	12/7/2015	1/2/2016	8	TLAC	No Longer Empk	Health of Animal	IBB	Allergies	30
